MANCHESTER

*Afternoon tea was introduced in England by Anna, the seventh Duchess of Bedford, in the year 1840.*

*The Duchess would become hungry around four o'clock in the afternoon. The evening meal in her household was served fashionably late at eight o'clock, thus leaving a long period of time between lunch and dinner. The Duchess asked that a tray of tea, bread and butter and cake be brought to her room during the late afternoon.*

*This became a habit of hers and she began inviting friends to join her and this pause for tea became a fashionable social event.*

*Whilst using the finest ingredients we have created your afternoon tea with influences from classic James Martin recipes; such as his classic Sticky Toffee Pudding and award-winning RedHill Farm Pork, home-roasted with a honey glaze. Enjoy!*
